Dear Sirs:

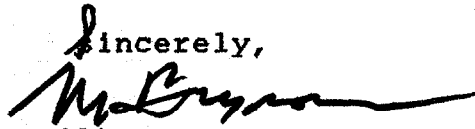

This letter will concern 98P-0151/CPI.....
regarding downed Animals going to Slaughter. Since
it concerns My health and others...Animals who are
too sick or injured even to stand should not be
allowed to enter the human food chain.

Some evidence exists some of these animals
could be suffering from "Mad Cow" or other diseases.

it is impossible to move downed Animals humanely,
and pushed or dragged by tractor causes additional
suffering by the Animals.

Downed animals comprise a very small percentage of
Animals Slaughtered and prohibiting their marketing will
cause no undue economic hardship.

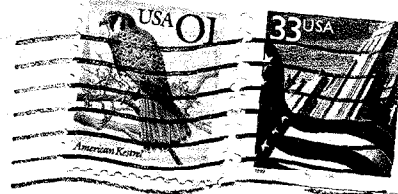

I speak for myself, and several other neighbors who
do not have the time to write. I hope this matter will
recieve favorable attention. thank You

Sincerely,

Milton J. Bryson
